

Women in the Outdoors Committee Report

October 2011

Submitted by Katrina Skrapits

- Submitted an article in the Fall 2011 Issue of Turkey Talk to promote the Women in the Outdoors program, written by the participants of the Lehigh Valley WITO event on June 11th, 2011.
- Personally emailed the WITO article to Carl Roe and Joe Neville of the PGC to show that this program has not only created interest in hunting/ishing/trapping participation, but just as important it has increased awareness, understanding and respect for our hunting heritage. Included in my email was a Thank You to the PGC for their partnership and support of this program. Carl only had positive remarks and realizes the program is very important and the article was a real positive for the hunting/outdoors recruiting effort.
- The committee will be assisting National Coordinator, Teresa Carroll in the transition of a new PA Women in the Outdoors Coordinator to be hired to fill the open position. (No, it's not me.) The PGC has signed another years contract in their partnership with the NWTF to help build the WITO program in the state of PA.
