

Promotion Committee Report—October 2012

--Had a couple of conversations with Trina and Walt regarding having shirts made again for this year at the rendezvous. We are going to use the same design as last year but are looking a different printer to up-grade the quality. Walt actually has a contact in Massachusetts that has the capability to set up an order form on a webpage. This would eliminate the necessity for use to carry an inventory. We could advertise it and people could place the order directly with the vendor. The vendor would also make a donation to the state chapter for every order placed. We will work on getting more info from Walt. There would be a small set up fee. Details to follow....Regardless, we need to have shirt available at the rendezvous as they sold really well last year.

--Working with Dennis Wade on Pa State Chapter window sticker/decals. I need to follow up with Dennis as I let this one slip thru the cracks. We hope to have them available for the Rendezvous and the PA Eastern Sports Show. More details to follow.
