

## Orange Committee

Thanks to the attention of Howard Myers at a PGC Workshop “I watched a delay of the PGC working group meeting Part 1 tonight, at about 10 to 14 minutes into the meeting they brought up the Simplified Florescent Orange changes that were THE UNANIMOUS CONSENSUS of all the sportsmen groups involved. The PA Chapter of the NWTF was the first group listed.

The groups met on April 14 and Aug 11, 2013. I was at the June 2012 State Chapter Board Meeting where after a heated discussion our representative to this group was informed that the PA Chapter would not agree to more florescent orange or to change what is now listed for turkey hunters to wear now in the fall. Fall is 250 square while moving and could be removed and an 100 square orange band within 5 yards of your set up and no changes for spring gobbler season. The new regulations as stated in the working group meeting today say **250 square Florescent Orange worn at all times!**”

Through numerous e-mails and the work of Bob Eriksen the situation was taken care of. There was a communication breakdown and I never received any e-mails from PGC nor was anyone else contacted, apparently they didn't have any other peoples email as well.

I would like it noted that there was ONE HRSI during this past Spring season without MANDATORY ORANGE!!!!
